FALL SEMESTER
ACTIVITY REPORT
2022-2023

ACTIVITIES FOR FACULTY MEMBERS

1

Our Center organizes seminars, workshops and evaluation meetings aiming to encourage innovative teaching practices by faculty members.

01. _____ Academic Development Program
02. _____ Teaching Observation Program
03. _____ Innovative Teaching Ideas
04. _____ Technology Mentoring Program
05. _____ Course Design Workshop

Academic Development Program

Over the last three semesters, Sustainable Teaching and Learning Center has been carrying out the "Academic Development Program", which is an orientation program for Research Assistants. In this context, the orientation program for the 2022-2023 Fall Semester, consisting of 9 modules and 1 evaluation session, took place between 23 and 27 January 2023 in Mehmet Akif Ersoy and K Halls at Beytepe Campus of Hacettepe University. Since April 2022, besides the newcomers to the Hacettepe family, Research Assistants from various departments have voluntarily participated in these trainings.

At this first step of their academic path, teaching and research ecosystems were introduced to the participants, and they were informed about communication skills, academic ethics, as well as psychological resilience, so that they would have a more conscious start and that they would also get to know Hacettepe University. This program, which brings together young researchers from various disciplines, not only enables experience sharing but also provides an opportunity to voice different perspectives.

Teaching Observation Program

The "Teaching Observation Program" applies to courses of all levels at our University with the aim to improve the quality of teaching services, and it addresses with the instructors their needs as well as course-specific qualities.

This is a three-staged program consisting of a preliminary interview with the course instructor, the actual observation of the classes, and post-observation evaluation interview. In the Fall Semester of the 2022-2023 Academic Year, the following instructors have participated in the Course Observation Program by hosting us in their classes.

Talks on Innovative Teaching Ideas

Within the scope of talks on "Innovative Teaching Ideas", guest scholars share with their colleagues their experiences on teaching technologies, innovative in-class teaching methods, ways to increase in-class interaction, alternative assessment and evaluation methods as well as distance education practices. With this program, it is aimed to shed light on how to create a teaching environment that will enable the achievement of the learning outcomes for students in the most effective way. To this end, in the Fall Semester of the 2022-2023 Academic Year, four different talks have taken place.

Course Design Workshop

The Course Design Workshop aims for the course instructor to effectively redesign a course by addressing certain aspects, namely the course's targets, teaching and learning processes as well as assessment. The Workshop has three stages. At the first stage, the "Course Design Workshop" has been held between 7 and 8 September 2022 with the participation of 14 instructors from 8 different faculties. At the second stage, the process of putting into practice the design that was created during the workshop has been observed throughout the semester by staying in touch with the participants.

Finally, on 17 February 2023 at the evaluation meeting, the participants shared their experience as to implementing their redesigned courses. Moreover, with this meeting, feedback has been collected on effective aspects of the Course Design Workshop as well as on what can be improved considering future workshops.

STUDENT ACTIVITIES

2

Our Center offers various student-oriented seminars and training programs to support the academic, social and personal development of our students.

01. _____ Academic Peer Support Program
02. _____ Life Skills Seminars
03. _____ Graduate Conversations

Academic Peer Support Program

The main purpose of the Academic Peer Support Program is to improve students' academic skills with the help of trainings and supervision provided by their peers. With the Academic Peer Support Program, while improving students' academic record who are receiving the support, it is also aimed to contribute to the social psychological development of the students both at giving and the receiving end.

Academic peer candidates were chosen among students who have previously completed the concerned course successfully, and after they completed the mandatory training required for the program, they have offered the academic support to their peers.

Life Skills Seminars

Life Skills Seminars are offered by experts to support students by providing them with up-to-date knowledge on various subjects especially on education, communication and technology related issues, and to enable them to obtain skills that they can use during and after their education.

In the Fall Semester of the 2022-2023 Academic Year, we brought our students together with faculty members from the Faculty of Nursing, State Conservatory and Faculty of Medicine to discuss numerous current issues in the Life Skills Seminars.

Graduate Talks

With the “Graduate Talks” it is aimed to provide guidance to our students especially in terms of their academic career development and improvement of their research capabilities. In these seminars, researchers and scientists from Hacettepe University and other research institutions share experiences that can be enlightening for our students on their path of learning as well as academic studies, and also contribute to the establishment of new interdisciplinary interactions.

In this vein, in the Fall Semester of the 2022-2023 Academic Year, four different seminars were held to bring our graduate students together with faculty members who are leading figures in their fields.
