

# SPRING SEMESTER ACTIVITY REPORT 2022-2023

This report shares information about the activities of the Hacettepe University Sustainable Teaching and Learning Center in the 2022-2023 Academic Year Spring Semester. During this period, approximately 1200 faculty members and students were reached in 15 events. Many of our center's events and activities were carried out online due to the earthquake disaster in our country on February 6, 2023. Among our programs, the "Course Design Workshop" was organized face-to-face and support was provided to 11 faculty members. We would like to thank the entire Hacettepe family for their participation and contribution to our 2022-2023 Academic Year Spring Semester Activities.

**Assoc. Prof. Dr. Okay ALTUN**

As part of the Innovative Teaching Sharing program, guest faculty members share the teaching technologies they have experienced in their classrooms, innovative teaching methods, ways to enhance classroom interaction, alternative assessment and evaluation methods, and remote teaching practices with their colleagues. This program aims to shed light on creating an educational environment that will enable students to achieve their learning objectives in the most effective way. In the Spring Semester of the 2022-2023 Academic Year, discussions were held on three different topics aimed at serving these objectives.

## Project Coordinator

Prof. Dr. Yasemin DEMİRASLAN ÇEVİK

The Course Design Workshop is an interactive program that brings together Education experts and faculty members to collaboratively redesign courses. The workshop takes a holistic approach, focusing on three key elements: Objectives, Teaching-Learning Processes, and Evaluation. Our workshop, conducted on 22-23 June 2023, successfully hosted 11 faculty members as participants.

An evaluation meeting was conducted following the workshop, identifying its strengths and areas for improvement. This evaluation provided valuable insights and data to guide future iterations of the Course Design Workshop.

# Academic Peer Supports

Project Coordinator

Dr. Dilek AVCI

4 LESSON  
15 SESSION  
420 REGISTRATIONS  
4 MENTOR STUDENTS

The primary aim of the Academic Peer Support Program is to provide academic assistance to students through education and supervision received from their peers. In addition to the academic success of the students receiving support, the program also contributes to the social and psychological development of both the students providing support and those receiving it.

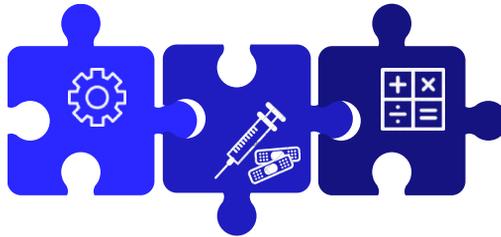

Peer mentor candidates, who have successfully completed the relevant course, have offered academic peer support to their fellow students following their training.

## Project Coordinator

Assist. Prof. Dr. Emre Yilmazkaya

To support students with up-to-date information on various topics, particularly those related to education, communication, and technology, "Life Skills Seminars" have been organized by experts in their fields. These seminars aim to help students acquire skills that they can use throughout and after their educational process. In the Spring Semester of the 2022-2023 Academic Year, the seminars provided an opportunity for our students to come together and discuss a wide range of current topics.

## Project Coordinator

Assoc. Prof. Dr. Aydın KAYA

The Graduate Seminars aim to create an environment where students can receive guidance on the steps to take in their academic career paths and enhance their research skills. These seminars provide an opportunity for researchers and scientists from Hacettepe University and other research institutions to share their experiences, which will illuminate the academic journeys and studies of our students, while also fostering interdisciplinary interactions.

To achieve these goals, during the Spring Semester of the 2022-2023 Academic Year, graduate students had the opportunity to meet with leading faculty members and professionals in four different fields.
