SUSTAINABLE TEACHING
AND LEARNING

This report provides an overview of the activities carried out by the Hacettepe University Sustainable Teaching and Learning Center during the Spring Semester of the 2023-2024 Academic Year. Over the course of the semester, our center organized 92 events, engaging approximately 325 faculty members and 1,700 students. The growing number of interactions and participation each term fuels our motivation and deepens our sense of responsibility for future activities.

We extend our heartfelt gratitude to the entire Hacettepe community for their participation and contributions to the activities of the 2023-2024 Academic Year Spring Semester.

Project Coordinator

Prof. Dr. Yasemin DEMİRASLAN ÇEVİK

The "Technology Mentoring" program aims to enhance the technological skills of faculty and support them in effectively integrating technology into their teaching. As part of the program, successful students from Information Technology-related departments are paired with faculty who need training in technology. These mentor-faculty pairs collaborate weekly on technology-focused activities to achieve the program's goals.

During the Spring Semester of the 2023-2024 Academic Year, the program was successfully completed with the following participants: 16 second-year students from the Department of Computer and Instructional Technologies, 14 faculty members from six different departments of the university, and 2 administrative staff members. This collaborative initiative provided a platform for knowledge sharing and skill development, fostering a supportive environment for technological growth.

Project Coordinator
Dr. İpek DERMAN

The "Teaching Observation" program at our university is conducted to enhance the quality of teaching services across all course levels. It focuses on addressing the needs of faculty members and course-specific issues in collaboration with the course instructor. The Teaching Observation process follows three stages: (1) a preliminary meeting, (2) classroom observation, and (3) a post-observation evaluation meeting with the course instructor.

In the Spring Semester of the 2023-2024 Academic Year, six faculty members from three different faculties participated in the Teaching Observation program.

The Academic Orientation program is designed to facilitate the integration of newly appointed research assistants at our university, introduce them to research opportunities and project resources, and raise awareness about their teaching roles. With the addition of new research assistants each year, the Hacettepe Family continues to grow and develop.

In the Spring Semester of the 2023-2024 Academic Year, the fifth Academic Orientation was held, with 92 Research Assistants from 19 different academic units at Hacettepe University participating. The training sessions, consisting of twenty modules, were conducted simultaneously at the Beytepe and Sıhhiye Campuses from June 12-14, 2024.

Prof. Dr. Yasemin DEMİRASLAN ÇEVİK

The Course Design Workshop is an interactive program that brings together education experts and faculty members to collaboratively redesign courses. The workshop focuses on a holistic approach, incorporating key elements such as learning objectives, teaching and learning processes, and evaluation methods. In the Spring Semester, the workshop was conducted online as a pilot program from 24-28 June 2024 with the participation of 11 faculty members from the Department of Psychology.

Faculty members worked through the workshop modules at their own pace during the day. Interactive discussion sessions were held every evening via Zoom, providing an opportunity for participants to share insights, exchange ideas, and collaborate effectively. This workshop served as a valuable platform for rethinking course design and enhancing teaching practices.
